3.01 In the month of March 2020, the Company declared an Interim Dividend of Rs. 175/- per equity share of Rs 100/- each for the financial year ended March 31, 2020, which has been disbursed. Total outflow was Rs.648.45 lakhs (including Dividend Distribution Tax).

3.02 The Board decided not to recommend final dividend in order to conserve resources.

THE YAMUNA SYNDICATE LIMITED

4.00 STATE OF COMPANY AFFAIRS AND OPERATIONS INCLUDING MANAGEMENT DISCUSSION & ANALYSIS:

- 4.01 The revenue from Operations during the year was Rs. 5,111.92 lakhs as against Rs. 6,625.08 lakhs in the preceding year. Profit before tax was Rs. 1,401.32 lakhs as against Rs. 419.58 lakhs in the preceding year. This was owing to higher dividend income received from our Associate Company i.e. Isgec Heavy Engineering Limited.
- 4.02 In general, it was a difficult year for our trading operations. Demand remained suppressed for the greater part of the year. There was severe competition in most areas of our operation due to the declining demand for various products.
- 4.03 On a positive note, our business performance of pesticides, lubricants and fuels during the year was satisfactory.
- 4.04 The Company continued with efforts to enlarge its area of operation, increase the market share, and identify new product lines for trading.
- 4.05 We continued to retain our focus on safety, quality and customer service.
- 4.06 Towards the end of the year, business operations and revenues were badly hit owing to the spread of the Covid 19 pandemic leading to the shutdown of our Head Office & Branches wef 24 March, 2020. The operations have slowly resumed from early May, 2020 based on Government directives and with compliance of social distancing and other health and safety measures. The disastrous impact of the virus on the Indian economy; as well as the lasting damage to the trade and industry, is likely to be felt during the current year. We continue to monitor the situation.
- 4.07 Apart from this threat, our trading operations are also likely to be adversely impacted by declining growth in several sectors leading to falling demand, severe competition, and low margins.
- 4.08 In compliance with SEBI (Listing Obligations & Disclosure Requirements) (Amendment) Regulations, 2018, details of significant changes in key financial Ratio are given in Annexure-1.

5.00 REPORT ON THE PERFORMANCE AND FINANCIAL POSITION OF ISGEC HEAVY ENGINEERING LIMITED (ASSOCIATE COMPANY):

- 5.01 The turnover of the Associate Company has been higher during the year owing to the record level of orders at the start of the year. This resulted in strong growth in turnover and an increase in profit.
- 5.02 However, the turnover and profit got affected due to the nationwide lockdown starting in middle of March 2020, because of which all the Manufacturing Plants and Offices of the Company and Project Sites were closed. Consequently, a lot of billing of the last part of the year could not be completed.
- 5.03 After the lifting of lockdown, all the factories are working at full capacity. All the project sites are also operational, however labour availability is around 60% and it will take a few months for operations to reach pre-covid levels.
- 5.04 The Associate Company has made various efforts to save costs and increase productivity. These include standardization of components, automation in engineering, value engineering and review of designs and simplification of work.
- 5.05 The Associate Company continued to diversify its Product range to take projects of Industrial Waste Water Treatment & Recycling, and Civil Infrastructure and secured orders.
- 5.06 Investment by Private Sector was low during the year. However, due to infra push, a number of projects came from the Public Sector. Accordingly, customer base of the Division shifted from the Private Sector to the Public Sector. In view of Covid-19, this trend is likely to grow further.
- 5.07 The order book at the start of FY 2021 is satisfactory. However, the impact of Covid-19 on the economy and booking of fresh orders has to be seen.

THE YAMUNA SYNDICATE LIMITED

5.08 The Associate Company was in arbitration with a customer Cavite Bio fuel Producers Inc. (CBPI), for which it was executing a contract to design, construct, commission and deliver a bio-refinery project in the Philippines. In settlement of the dispute it acquired CBPI.

5.09 The Associate Company incorporated a Wholly Owned Subsidiary, Isgec Investments Pte. Ltd., Singapore, for the purpose of acquiring CBPI along with its holding companies at a nominal consideration of USD100.

6.00 CONSOLIDATED FINANCIAL STATEMENTS:

6.01 As required under Section 129(3) of the Companies Act, 2013, the Company has prepared consolidated financial statements in respect to the Company and its Associate Company-Isgec Heavy Engineering Limited.

INDEPENDENT AUDITOR'S REPORT

To the Members of The Yamuna Syndicate Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of **The Yamuna Syndicate Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2020, the Statement of Profit and Loss (including the statement of Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the '*Auditor's Responsibilities for the Audit of the Ind AS Financial Statements*' section of our report. We are independent of the Company in accordance with the '*Code of Ethics*' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Ind AS financial statements of the current period. These matters were discussed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters as there were no such significant matters which need to be reported separately.

Information other than the Standalone Ind AS Financial Statements and Auditor's Report thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the Standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

THE YAMUNA SYNDICATE LIMITED

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, considered whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibility for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

THE YAMUNA SYNDICATE LIMITED

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure "A", which forms a part of this report, a statement on the matters specified in paragraph 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion, proper books of account, as required by law have been kept by the Company so far, as appears from our examination of such books.
 - (c) The Balance Sheet, Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with relevant rules issued thereunder.

THE YAMUNA SYNDICATE LIMITED

- (e) On the basis of written representations received from the Directors and taken on record by the Board of Directors, we report that none of the Directors is disqualified as on 31st March 2020 from being appointed as a Director in terms of Section 164(2) of the Companies Act, 2013.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure “B”.
- (g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the managerial remuneration for the year ended March 31, 2020 has been paid/provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act.

THE YAMUNA SYNDICATE LIMITED

ANNEXURE “B” TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **The Yamuna Syndicate Limited** (“the Company”) as of 31st March 2020 in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting:

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that;

THE YAMUNA SYNDICATE LIMITED

- a. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- b. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- c. Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

THE YAMUNA SYNDICATE LIMITED

Note 1: Corporate information

The Yamuna Syndicate Limited (the “Company”) is a Listed Public Limited Company. The registered office of the Company is located at Radaur Road, Yamunanagar -135001(Haryana).The Company is engaged in trading activities.

Note 2: Significant accounting policies

This note provides a list of all significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently adopted to all the years presented, unless otherwise stated.

(a) Basis of preparation:

Compliance with IND AS

These financial statements are prepared in accordance with the Indian Accounting standards (IND AS) under the historical cost convention on accrual basis, the provisions of the Companies Act, 2013 (the Act) (to the extent notified). The IND AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The Company has adopted the IND AS Standards and the adoption was carried out in accordance with IND AS.

(b) Current versus Non-current classification:

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is classified as current when it is:

- * Expected to be realised or intended to be sold or consumed in normal operating cycle,
- * Held primarily for the purpose of the trading,
- * Expected to be realised within twelve months after the reporting period, or
- *Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- *it is expected to be settled in normal operating cycle,
- *it is held primarily for the purpose of the trading,
- *it is due to be settled within twelve months after the reporting period, or
- *there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Significant accounting policies (cont..)

(c) Property, plant and equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

Transition and IND AS

On transition to IND AS, the Company has elected to continue with the carrying value of its property, plant and equipment recognized as at 1st April, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the written down value method to allocate their cost, net of residual values, over their estimated useful lives of the assets as prescribed under schedule II to the Companies Act, 2013

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable values.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within gains / (losses).

(d) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost of traded goods include cost of purchases and other costs incurred in bringing the inventories to their present location and condition after deducting rebates and discounts. Cost is determined on weighted average method.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(e) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand and deposit with banks. Cash equivalents are short term, highly liquid investments that readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Significant accounting policies (cont..)

(f) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is disclosed, unless the possibility of an outflow of resources embodying economic benefits has become probable.

A contingent asset is not recognized but disclosed when an inflow of economic benefits is probable. A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by occurrence or non-occurrence of one or more uncertain events not wholly within the control of the entity.

(g) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the country where the Company operate and generate taxable income. Management evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only will if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

THE YAMUNA SYNDICATE LIMITED

Significant accounting policies (cont..)

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(h) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

However, good & service tax (GST)/ value added tax (VAT) is not received by the group on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue. The specific recognition criteria described below must also be met before revenue is recognised.

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns, discounts, allowances and rebates.

Rendering of services

Service revenues are recognised as the services are rendered and are stated at net of discounts and taxes. Revenues from prepaid- customers are recognized based on actual usage. When the contract outcome cannot be measured reliably, revenue is recognised only to the extent that the expenses incurred are eligible to be recovered.

Interest income

Interest income is recognised using the bank interest rates which are considered to be effective rate of interest. The effective rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. While calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (For example prepayments, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Revenue is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Significant accounting policies (cont..)

(i) Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(j) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current benefit obligations in the Balance sheet.

(ii) Other long term employee benefit obligations

The liabilities for earned leave and sick leave are expected to be settled wholly within twelve months after the end of the period in which the employee render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees upto the end of the reporting period using the projected unit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuary using the projected unit credit method, is funded with Life Insurance Corporation of India.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

THE YAMUNA SYNDICATE LIMITED

Significant accounting policies (cont..)

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined contributions plan

The Company's contributions to provident fund and superannuation fund are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. The Company has no further payment obligations once the contributions have been paid.

Bonus plans

The Company recognizes a liability and an expense for bonus. The Company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(k) Earnings per share

Basic and diluted earnings per share are computed by dividing the profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

(l) Financial instruments

(i) Measurement

An initial recognition, the Company measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

***Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognized in profit and loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

***Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate.

Significant accounting policies (cont..)

***Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of profit and loss within other gain/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

(ii) Impairment of financial assets

In accordance with IND-AS 109, the Company applies expected credit loss (ECL) mode for measurement and recognition of impairment loss on financial assets and credit risk exposures.

Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, deposits, trade receivables and bank balance. Financial assets that are debt instruments and are measured as at FVTOCI

The Company follows simplified approach for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its recognition.

(iii) Derecognition of financial assets

A financial asset is derecognised only when the Company has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients. When the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

(m) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

(n) Trade payables

The amount represents liabilities for services provided to the Company prior to the end of the period which are unpaid. The amounts are unsecured non-interest bearings and are usually paid within 60 days of recognition. Trade payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized at amortised cost, and the carrying amounts are reasonable approximation of fair value.

THE YAMUNA SYNDICATE LIMITED

Significant accounting policies (cont..)

(o) Equity instruments

Investment in associate is accounted for at its acquisition cost.

Transition to IND AS

IND AS 101 allows an entity to continue with the carrying value of investment in associate at cost as at the date of transition to IND AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

The Company has elected to apply this exemption for its investment in associate.

(p) Rounding off amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Note 3: Accounting estimates, assumptions and judgments:

The preparation of financial statements requires the use of accounting estimates, which by definition, will seldom equal the actual results, also needs to exercise judgment in applying the Company's accounting policies, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities, if any. Uncertainty about these assumptions and estimates could result in outcomes of assets and liabilities affected in future periods.

The area involving critical estimate or judgment is

- | | |
|--|-------------|
| -Recognition of deferred tax assets for carried forward losses | - Note 6 |
| -Impairment of trade receivables | - Note 5(b) |
| - Estimation of tax expense | - Note 22 |

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

There are no sources of estimation uncertainty that may have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities in future periods, and also there are no significant judgments that may require disclosures.

Defined benefit plan (contd.)

(ii) Significant estimates: Actual assumptions and sensitivity

(a) Sensitivities due to morality and withdrawals are not material and hence impact of change is not calculated.

(b) Sensitivity of the defined benefit obligation is determined based on the expected movement in liability if the assumptions were not proved to be true on different count.

Particulars	31st March,2020	31st March,2019
(i) Major categories of plan assets (as percentage of total plan assets)	100%	100%
(ii) Economic assumption		
-Discount rate	6.75%	7.65%
-Salary escalation	10.00%	10.00%
(iii) Demographic assumption		
-Retirement age (years)	60	60
-Morality rates inclusive as provision for disability	100% of IALM (2012-14)	100% of IALM (2012-14)
- Ages		
(iv) Aggregate weighted average principal assumption	12.81%	11.89%
(v) Attrition rate	5% PA	10% PA
(vi) Morality rates for specimen ages:		
Age	QW	QR
20	0.003417	-
25	0.037583	-
30	0.071750	-
35	0.100450	-
40	0.079950	-
45	0.594500	-
50	0.038950	-
55	0.018450	-
60	0.000000	1.000000

While calculating the sensitivity of the defined benefit obligation to significant actuarial assumption the same method (Present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumption used in preparing the sensitivity analysis did not change compared to the prior period.

Note 26 : Capital Management

(a) Risk management

The company's objectives when managing Capital are to:

- * Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and other benefits for shareholders, and
- * Maintain an optimal capital structure to reduce the cost of capital

The Company monitors Capital using Gearing Ratio, which is net debt divided by total capital plus debt.

The Company's strategy is to maintain gearing ratio within 30%.The gearing ratio was as follows:

(In INR Lakhs)

Particulars	31st March, 2020	31st March, 2019
Debts	-	222.65

Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(ii) Valuation technique used to determine fair value of financial instruments include:

Valuation technique used to determine fair value of financial assets and liabilities is discounted cash flow analysis.

(iii) The following method and assumption are used to estimate fair value:

The carrying amount of trade receivables, trade payables, and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature. The fair values for loans, security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counter party credit risk.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amount are equal to the fair values.

Note 29 : Disclosure under the Micro, Small and Medium Enterprises Development Act, 2006

The Micro, Small and Medium Enterprises Development (MSMED) Act, 2006 requires specific disclosures to be made in financial statements of the buyer wherever such financial statements are required to be audited under any Act. IND-AS Compliant Schedule III is silent on MSMED disclosures. However, these financial statements do not contain statutory disclosures such as disclosures required under MSMED as the company has not received any intimation from suppliers regarding their status under MSMED Act.

THE YAMUNA SYNDICATE LIMITED

Notes to the Standalone financial statements for the year ended 31st March, 2020

Note 30 : Financial Risk Management

The Company's Financial Liabilities and Financial Assets are measured at amortised cost. The Company's activities are expose to Credit risk, Liquidity risk and Market risk.

This note explains source of risk which the entity is exposed to and how the entity manages the risk.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, Trade Receivables measured at amortised cost.	Ageing analysis, Credit Ratings	Diversification of bank depositis and credit limits
Liquidity risk	Borrowings and other liabilities	Rolling Cash Flow forecasts	Availability of committed credit limits and borrowing facilities
Market risk-Interest rate	Loans,borrowings,deposits, investments & derivative financial instruments	Sensitivity analysis	Interest rate swaps

The senior management oversees the management of these risks. The senior management is supported by the Board of Directors that advises on financial risks and the appropriate financial risk governance framework for the Company. The Board reviews and agrees policies for managing each of these risks, which are summarised below.

(a) Credit Risk

Credit risk is the risk that a counterparty will not meet the obligation under a financial instrument or customer contract, leading to a financial loss. The Company is exposed from its operating activities (primarily trade receivables) and from its financing activities, including deposits from banks and other financial instruments.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an going bases through out the reporting period. To assess whether there is a significant increase in credit risk, the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward looking information. Especially the following indicators are incorporated:

- * actual or expected significant adverse changes in business.
- * actual or expected significant changes in the operating results of the borrower.
- * significant increase in credit risk on other financial instruments of the same borrower.
- * significant changes in the value of the collateral supporting the obligation or in the quality of third party guarantees or credit enhancements.
- * Financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligation.

Expected credit loss for trade receivable on simplified approach:

The ageing analysis of the trade receivables (gross of provision) has been considered from the date of invoice falls due :-

(In INR Lakhs)

Ageing	Not Due	Less than 3 months	3 to 6 months	6 to 12 months	More than 12 month	Total
As at 31st March,2020						
Gross Carrying Amount		205.41	16.17	5.54	12.57	239.69

(b) Liquidity Risk

Liquidity risk is defined as the risk that Company will not be able to settle or meet its obligation on time or at a reasonable price. The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. Process and policies related to such risk are overseen by the senior management. Management monitors the Comapny's net liquidity position through rolling forecast on the basis of expected cash flows.

(C) Market Risk

Market risk is the risk that the fair value of future cash flow of a financial instrument will fluctuate because of change in market prices. Market risk comprises three type of risk :

Interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments and derivative financial instruments. The sensitivity analyses in the following sections relate to the position as at 31st March, 2020 and 31st March, 2019.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regard to interest income and interest expenses and to manage the interest rate risk, management performs a comprehensive corporate interest rate risk management by balancing the proportion of the fixed rate and floating rate financial instruments in its total portfolio.

The exposure of Company's borrowing to interest rates changes at the end of the reporting period are as follows:

THE YAMUNA SYNDICATE LIMITED

INDEPENDENT AUDITOR'S REPORT

To the Members of The Yamuna Syndicate Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying Consolidated Ind AS Financial Statements of **The Yamuna Syndicate Limited** and its associate company (ISGEC Heavy Engineering Limited), which comprise the Consolidated Balance Sheet as at March 31, 2020, and the Consolidated Statement of Profit and Loss (including other comprehensive income), the consolidated statement of changes in equity and the Consolidated cash flows Statement for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as “the Consolidated Ind AS Financial Statements”).

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and other financial information of associate, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at March 31, 2020, of its consolidated profit (including consolidated other comprehensive income), its consolidated cash flows and the consolidated changes in equity for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the “*Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements*” section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the *Code of Ethics* issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with these requirements and code of ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated Ind AS financial statements.

Emphasis of Matter

M/s SCV & Co. LLP, the auditors who have audited the consolidated Ind AS financial statements of ISGEC Heavy Engineering Limited and its subsidiaries/associates, in their report has stated as under:

“We draw attention to Note 55 to the consolidated Ind AS financial statements which describe the uncertainties and the impact of Covid-19 pandemic on the Group’s operations, carrying amounts of investments, recoverability of receivables and other assets and management’s evaluation of the future performance of the Group. Our opinion is not modified in respect of this matter”

The note 55 referred in the above said report read as under:

“The Company has evaluated the impact of Covid-19 resulting firm (i) the possibility of constraints to fulfil its performance obligations under the contract with customers; (ii) revision of estimations of costs to complete the contract because of additional efforts; (iii) termination or deferment of contracts by customers. The company has concluded that the impact of Covid-19 is not material on long term basis based on these estimates. Due to the nature of the pandemic, the Company will continue to monitor developments to identify significant uncertainties relating to revenue in future periods.

THE YAMUNA SYNDICATE LIMITED

The company has considered the possible effects that may result from the pandemic relating to Covid-19 on the recoverability of receivables including unbilled receivables and contract assets and contract costs, intangible assets and investments and other financial assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial results has used internal and external sources of information including credit reports and related information, economic forecast and consensus estimates from market sources on the expected future demand of its products and services. The company has performed, analysis on the assumptions used and based on the current estimates expects the carrying amount of these assets will be recovered.

The impact of Covid-19 on the company's financial results may differ from the estimated as at the date of approval these financial statements.”

Our Opinion is not modified in respect of the matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated Ind AS financial statements of the current period. These matters were discussed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters as there were no such significant matters which need to be reported separately.

Information other than the Consolidated Ind AS Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report of the Board of Directors including annexures to Board's Report, but does not include the Consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Company's Board of Directors is responsible for the matter stated in section 134(5) of the Act with respect to the preparation and presentation of these Consolidated Ind AS Financial Statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as “the Act”) that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rule, 2015 as amended. The respective Board of Directors of the Company and its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind

THE YAMUNA SYNDICATE LIMITED

AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of presentation of the Consolidated Ind AS Financial Statements by the Directors of the Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

THE YAMUNA SYNDICATE LIMITED

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

The consolidated Ind AS financial statements include the share in profit and other comprehensive income is Rs 7,533.45 lakhs reported in the associate's consolidated Ind AS financial statements for the year ended March 31, 2020, including of its subsidiaries whose financial statements have been audited by other auditors. These consolidated Ind AS financial statements and other information have been furnished to us by the management and our opinion on the consolidated Ind AS financial statements, in so far it relates to the amounts and disclosures included in respect of this associate and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid associate, is based solely on the report of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

THE YAMUNA SYNDICATE LIMITED

Annexure-A to Independent Auditor's Report

*[Referred to in Paragraph (1)(f) "Report on Other Legal and Regulatory Requirements" of the Independent Auditor's Report of even date to the members of **The Yamuna Syndicate Limited** on the Consolidated Ind AS Financial Statements for the year ended March 31, 2020]*

Report on the Internal Financial Controls

(Under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act"))

In conjunction with our audit of the Consolidated Ind AS Financial Statements of The Yamuna Syndicate Limited, Yamunanagar as of and for the year ended 31st March, 2020, We have audited the internal financial controls over financial reporting of **the company** and its associate which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company and its associate, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

An audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, and the audit evidence obtained by the other auditors in terms of their reports referred to in the other matter paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

THE YAMUNA SYNDICATE LIMITED

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company and its associate which are companies incorporated in India, have in all material respects, an adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to one associate company including of its subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

THE YAMUNA SYNDICATE LIMITED

Note 1: Corporate information

The Yamuna Syndicate Limited (the “company”) is a Listed Public Limited Company. The registered office of the company is located at Radaur Road, Yamunanagar -135001(Haryana).The company is engaged in trading activities.

The Company has one Associate company namely Isgec Heavy Engineering Ltd. (“Associate company”). It is also a Listed Public Limited Company, having its registered office at Radaur Road, Yamunanagar- 135 001. The Associate company is engaged in manufacturing of Plants, equipments and Machineries.

Note 2: Significant accounting policies

(a) Basis of preparation

(i) Compliance with IND AS

These consolidated financial Statements are prepared in accordance with the Indian Accounting standards (IND AS) under the historical cost convention on accrual basis, the provisions of the Companies Act, 2013 (the Act) (to the extent notified). The IND AS are prescribed under section 133 of the Act read with Rule 3 of the [Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The Company has adopted the IND AS Standards and the adoption was carried out in accordance with IND AS.

(ii) Principles of consolidation and equity accounting

The Company has only one associate and no subsidiary and Joint venture. These financial statements comprise the financial statements of the company and its associate. These financial statements are prepared by applying uniform accounting policies in use at the company.

An associate is an entity over which the company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. Investment in associate is accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor’s share of profit or loss of the investee after the acquisition date. The company’s investment in associate includes retained earnings arising at the time of acquisition of shares, and thereafter capital reserve and accumulated profits

(b) Current versus Non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- * Expected to be realised or intended to be sold or consumed in normal operating cycle,
- * Held primarily for the purpose of the trading,
- * Expected to be realised within twelve months after the reporting period, or
- * Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

THE YAMUNA SYNDICATE LIMITED

Significant accounting policies (cont..)

All other assets are classified as non-current.

A liability is classified as current when:

*it is expected to be settled in normal operating cycle,

*it is held primarily for the purpose of the trading,

*it is due to be settled within twelve months after the reporting period, or

*there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

(c) Property, plant and equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the written down value method to allocate their cost, net of residual values, over their estimated useful lives of the assets as prescribed under schedule II to the Companies Act, 2013

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable values.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within gains / (losses).

(d) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost of traded goods include cost of purchases and other costs incurred in bringing the inventories to their present location and condition after deducting rebates and discounts. Cost is determined on weighted average method.

THE YAMUNA SYNDICATE LIMITED

Significant accounting policies (cont..)

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(e) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand and deposit with banks. Cash equivalents are short term, highly liquid investments that readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value

(f) Provisions

General

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is disclosed, unless the possibility of an outflow of resources embodying economic benefits has become probable.

A contingent asset is not recognized but disclosed when an inflow of economic benefits is probable. A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by occurrence or non-occurrence of one or more uncertain events not wholly within the control of the entity.

(g) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the country where the company operate and generate taxable income. Management evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only will if it is probable that future taxable amounts will be available to utilize those temporary differences and losses

Significant accounting policies (cont..)

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred income taxes are not provided on the distributed profits of associate where it is expected that the earnings of the associate will not be distributed in the foreseeable future.

Deferred tax liabilities have not been recognized on temporary differences associated with investment in associate as it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are not recognized for temporary differences between the carrying amount and tax basis of investment in associate where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilized.

(h). Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

However, goods & service tax/value added tax (VAT) is not received by the group on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue. The specific recognition criteria described below must also be met before revenue is recognised.

Significant accounting policies (cont..)**Sale of goods**

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns, discounts, allowances and rebates.

Rendering of services

Service revenues are recognised as the services are rendered and are stated at net of discounts and taxes. Revenues from prepaid- customers are recognized based on actual usage. When the contract outcome cannot be measured reliably, revenue is recognised only to the extent that the expenses incurred are eligible to be recovered.

Interest income

Interest income is recognised using the bank interest rates, which is considered to be effective rate of interest. The effective rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. While calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (For example prepayments, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Revenue is recognized when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

(i) Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation

Other borrowing costs are expensed in the period in which they are incurred.

(j) Employee benefits**(i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current benefit obligations in the Balance sheet.

Significant accounting policies (cont..)

(ii) Other long term employee benefit obligations

The liabilities for earned leave and sick leave are expected to be settled wholly within twelve months after the end of the period in which the employee render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees upto the end of the reporting period using the projected unit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuary using the projected unit credit method, is funded with Life Insurance Corporation of India.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined contributions plan

The company's contributions to provident fund and superannuation fund are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. The company has no further payment obligations once the contributions have been paid.

Bonus plans

The company recognizes a liability and an expense for bonus. The company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(k) Leases

Payments made under leases for land are charged to statement of profit and loss under rent with reference to terms.

Significant accounting policies (cont..)

(l) Earnings per share

Basic and diluted earnings is computed by dividing the profit attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

(m) Financial instruments

(i) Measurement

An initial recognition, the company measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

***Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognized in profit and loss when the asset is derecognized or impaired these. Interest income from these financial assets is included in finance income using the effective interest rate method.

***Fair value through other comprehensive income(FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI).Movements in the carrying amount are taken through OCI ,except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is de-recognised, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate.

***Fair value through profit or loss :** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of profit and loss within other gain/(losses)in the period in which it arises. Interest income from these financial assets is included in other income.

Significant accounting policies (cont..)

(ii) Impairment of financial assets

In accordance with IND-AS 109, the company applies expected credit loss (ECL) mode for measurement and recognition of impairment loss on financial assets and credit risk exposures.

Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, deposits, trade receivables and bank balance. Financial assets that are debt instruments and are measured as at FVTOCI.

The company follows simplified approach for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its recognition.

(ii) De-recognition of financial assets

A financial asset is de-recognised only when the company has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients. When the entity has transferred an asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

(n) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

(o) Trade payables

The amount represents liabilities for services provided to the company prior to the end of the period which are unpaid. The amounts are unsecured non-interest bearings and are usually paid within 60 days of recognition. Trade payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized at amortised cost, and the carrying amounts are reasonable approximation of fair value.

(p) Investment in associate

An associate is an entity over which the company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

THE YAMUNA SYNDICATE LIMITED

Significant accounting policies (cont..)

The Company's investment in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the company's share of net assets of the associate since the acquisition date.

The statement of profit and loss reflects the company's share of the results of operations of the associate. In addition, when there has been a change recognized directly in the equity of the associate, the company recognizes its share of any changes, when applicable in the statement of changes in equity. Dividend received or receivable from associate is recognized as a reduction in the carrying amount of the investment.

(q) Rounding off amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Note 3 : Accounting estimates, assumptions and judgments

The preparation of financial statements requires the use of accounting estimates, which by definition, will seldom equal the actual results, also needs to exercise judgment in applying the company's accounting policies, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities, if any. Uncertainty about these assumptions and estimates could result in outcomes of assets and liabilities affected in future periods.

The area involving critical estimate or judgment is

- | | |
|--|-------------|
| -Recognition of deferred tax assets for carried forward losses | – Note 6 |
| -Impairment of trade receivables | - Note 5(a) |
| - Estimation of tax expense | - Note 22 |

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the company and that are believed to be reasonable under the circumstances.

There are no sources of estimation uncertainty that may have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities in future periods, and also there are no significant judgments that may require disclosures.

Defined benefit plan (contd.)

(ii) Significant estimates: Actual assumptions and sensitivity

(a) Sensitivities due to morality and withdrawals are not material and hence impact of change is not calculated.

(b) Sensitivity of the defined benefit obligation is determined based on the expected movement in liability if the assumptions were not proved to be true on different count.

Particulars	31st March,2020	31st March,2019
(i) Major categories of plan assets (as percentage of total plan assets)	100%	100%
(ii) Economic assumption		
-Discount rate	6.75%	7.65%
-Salary escalation	10.00%	10.00%
(iii) Demographic assumption		
-Retirement age (years)	60	60
-Morality rates inclusive as provision for disability	100% of IALM (2012-14)	100% of IALM (2012-14)
- Ages		
(iv) Aggregate weighted average principal assumption	12.81%	11.89%
(v) Attrition rate	5% PA	10% PA
(vi) Morality rates for specimen ages:		
Age	QW	QR
20	0.003417	-
25	0.037583	-
30	0.071750	-
35	0.100450	-
40	0.079950	-
45	0.594500	-
50	0.038950	-
55	0.018450	-
60	0.000000	1.000000

While calculating the sensitivity of the defined benefit obligation to significant actuarial assumption the same method (Present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period)has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumption used in preparing the sensitivity analysis did not change compared to the prior period.

Note 26 : Capital Management

(a) Risk management

The company's objectives when managing Capital are to:

* Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and other benefits for shareholders, and

* Maintain an optimal capital structure to reduce the cost of capital

The Company monitors Capital using Gearing Ratio, which is net debt divided by total capital plus debt.

The Company's strategy is to maintain gearing ratio within 30%.The gearing ratio was as follows:

(In INR Lakhs)

Particulars	31st March, 2020	31st March, 2019

Level 1 : Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(ii) Valuation technique used to determine fair value of financial instruments include:

Valuation technique used to determine fair value of financial assets and liabilities is discounted cash flow analysis.

(iii) The following method and assumption are used to estimate fair value:

The carrying amount of trade receivables, trade payables, and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature. The fair values for loans, security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counter party credit risk.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amount are equal to the fair values.

Note 29 : Disclosure under the Micro, Small and Medium Enterprises Development Act, 2006

The Micro, Small and Medium Enterprises Development (MSMED) Act, 2006 requires specific disclosures to be made in financial statements of the buyer wherever such financial statements are required to be audited under any Act. IND-AS Compliant Schedule III is silent on MSMED disclosures. However, these financial statements do not contain statutory disclosures such as disclosures required under MSMED as the company has not received any intimation from suppliers regarding their status under MSMED Act.

THE YAMUNA SYNDICATE LIMITED

Notes to the Consolidated financial statements for the year ended 31st March, 2020

Note 30 : Financial Risk Management

The Company's Financial Liabilities and Financial Assets are measured at amortised cost. The Company's activities are expose to Credit risk, Liquidity risk and Market risk.

This note explains source of risk which the entity is exposed to and how the entity manages the risk.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, Trade Receivables measured at amortised cost.	Ageing analysis, Credit Ratings	Diversification of bank deposits and credit limits
Liquidity risk	Borrowings and other liabilities	Rolling Cash Flow forecasts	Availability of committed credit limits and borrowing facilities
Market risk-Interest rate	Loans, borrowings, deposits, investments & derivative financial instruments	Sensitivity analysis	Interest rate swaps

The senior management oversees the management of these risks. The senior management is supported by the Board of Directors that advises on financial risks and the appropriate financial risk governance framework for the Company. The Board reviews and agrees policies for managing each of these risks, which are summarised below.

(a) Credit Risk

Credit risk is the risk that a counterparty will not meet the obligation under a financial instrument or customer contract, leading to a financial loss. The Company is exposed from its operating activities (primarily trade receivables) and from its financing activities, including deposits from banks and other financial instruments.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an going bases through out the reporting period. To assess whether there is a significant increase in credit risk, the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward looking information. Especially the following indicators are incorporated:

- * actual or expected significant adverse changes in business.
- * actual or expected significant changes in the operating results of the borrower.
- * significant increase in credit risk on other financial instruments of the same borrower.
- * significant changes in the value of the collateral supporting the obligation or in the quality of third party guarantees or credit enhancements.
- * Financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligation.

Expected credit loss for trade receivable on simplified approach:

The ageing analysis of the trade receivables (gross of provision) has been considered from the date of invoice falls due :-

(In INR Lakhs)

Ageing	Not Due	Less than 3 months	3 to 6 months	6 to 12 months	More than 12 month	Total
As at 31st March,2020						
Gross Carrying Amount		205.41	16.17	5.54	12.57	239.69
Less : Expected credit loss		-	-	-	10.19	10.19
Carrying Amount (net of impairment)		205.41	16.17	5.54	2.38	229.50
As at 31st March,2019						
Gross Carrying Amount		282.68	8.27	4.00	10.42	305.37
Less : Expected credit loss		-	-	-	9.14	9.14
Carrying Amount (net of impairment)		282.68	8.27	4.00	1.28	296.23

The Company uses a provision matrix to determine impairment loss on portfolio of its trade receivable. The provision matrix is based on its historically observed default data over the expected life of the trade receivable and is adjusted for forwarded looking estimates.

The following table summarises the change in the loss allowances measured using expected credit loss model :

Particulars	(In INR Lakhs)

Provided during the year	4.28
Amount written off	1.96
Reversal of provision	1.27
As at 31st March, 2020	10.19

(b) Liquidity Risk

Liquidity risk is defined as the risk that Company will not be able to settle or meet its obligation on time or at a reasonable price. The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. Process and policies related to such risk are overseen by the senior management. Management monitors the Company's net liquidity position through rolling forecast on the basis of expected cash flows.

(C) Market Risk

Market risk is the risk that the fair value of future cash flow of a financial instrument will fluctuate because of change in market prices. Market risk comprises three type of risk :

Interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments and derivative financial instruments. The sensitivity analyses in the following sections relate to the position as at 31st March, 2020 and 31st March, 2019.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regard to interest income and interest expenses and to manage the interest rate risk, management performs a comprehensive corporate interest rate risk management by balancing the proportion of the fixed rate and floating rate financial instruments in its total portfolio.

The exposure of Company's borrowing to interest rates changes at the end of the reporting period are as follows:
